OFF ROAD SERIES
PAGES 4 - 7
MOUNTAIN BIKES THAT LOOK JUST AS GOOD AS THEY PERFORM. WITH NEW LIGHTER TUBING, RACE PROVEN CAD FRAME GEOMETRY AND THE VERY LATEST EQUIPMENT.

MOUNTAIN BIKES
PAGES 8 - 16
IF YOU’VE GOT IT IN YOU THESE ARE THE BIKES TO BRING IT OUT! STUNNING NEW, SUPER TOUGH PAINT FINISHES AND PERFORMANCE ENHANCING FEATURES MAKE THESE THE BIKES TO BE SEEN ON THE STREET OR FAR AWAY FROM THE STRAIGHT AND NARROW.

PARTS AND ACCESSORIES
PAGE 17
Our Wheels are Your Wings

To play hard needn’t mean you have to work hard.

As the Mountain Bike revolution continues, the machines that breathed a new life into cycling are becoming lighter, more responsive and more efficient.

In short, more capable of taking on whatever challenges their riders may care to put before them.

The 1992 range of Raleigh Mountain Bikes, designed and built in Nottingham, England, are no exception.

All combine to give you the freedom to go your own way, with the ultimate confidence that Raleigh know-how puts you at one with your chosen machine.
With the knowledge gained from the success of the 1991 MTB racing season, the new "Off Road Series" frame is fully race proven and designed with a commitment to perform.

The specially developed Reynolds K2 Cromoly Mountain Tubing has eight laterally aligned ribs on the butt section to give enormous strength in the areas of maximum stress.

It also improves triangle rigidity and power transfer, yet, unbelievably, it weighs less!

These advantages are maximised in CAD geometry which makes the rider at one with the bike.

The forks are new 4130 Cromoly with continuous radius blades, combining lightness with stiffness and strength; but allowing utterly precise and responsive steering.

For the rear triangle, there are shorter chainstays and forged vertical drop-outs, which give an improved climb factor through extra strength in traction and perfect wheel alignment.

And a multitude of leading edge components come as standard.

Then there's the finish. It is nothing short of breathtaking and as hard as nails.

These bikes look as good on the road as they perform off it!
SUMMIT
- Rock Shox front suspension unit
- "Off Road Series" K2 full Cromoly frame with oversize seat stays, oversize head tube and forged vertical drop-outs.
- Shimano Deore LX 21 speed ensemble with Deore DX STI shifters and brake levers.
- Titanium handlebar with titanium finish "Zoom" Cromoly stem.
- Rigida hard grey anodised rims.
- Colour: Dark Ruby
- Frame sizes: 17", 19", 21"

PEAK
- Shimano Deore LX 21 speed ensemble with STI shifting.
- New "Off Road Series" K2 full Cromoly frame with oversize seat stays, oversize head tube and forged vertical drop-outs.
- Titanium handlebar with "Ergo" Kraton rubber grips.
- Rigida hard grey anodised rims.
- Titanium finish "Zoom" Cromoly stem.
- Colour: Teal Blue
- Frame sizes: 17", 19", 21"

When the going gets tough, the tough keep going on the bikes which are built rugged, yet handle as smooth as silk.

The Computer Aided Design frames give the coveted lightness and stiffness to transmit more energy direct to whatever terrain you wish to attack.

Other performance-enhancing features include “Finite Response” fork blades, oversize steering systems, Shimano STI group sets and sealed bottom bracket fittings.

And because you need looks as well as performance, the unique Raleigh paint finishes are twice as hard to last twice as long.

However tough the going gets.
YUKON

- Reynolds 501 double butted Mountain Bike frame with oversize head tube, quick release cable guides and “Finite Response” Unicrown forks.
- Shimano 300 LX 21 speed ensemble featuring:
  - Rapid Fire “Shimano Total Integration” (STI) Hyperglide gearing system.
  - Biopace chainset with detachable rings.
  - Low profile cantilevers with three finger brake levers.
- Reynolds 501 Cromoly handlebar.
- Vetta Aero Floating Air saddle with low profile black 4130 Cromo seat pin.
- Colour: Iridescent Green
- Frame sizes: 17", 19", 21", 23"

KANDARA

- Shimano 200 GS 21 speed ensemble featuring:
  - Rapid Fire “Shimano Total Integration” (STI) Hyperglide gearing system.
  - Biopace chainset.
  - Low profile cantilevers with three finger brake levers.
- Reynolds 501 double butted Mountain Bike frame with oversize head tube, quick release cable guides and “Finite Response” Unicrown fork.
- Vetta Aero Floating Air saddle with black alloy seat pin.
- Lightweight alloy rims with quick release front hub.
- Colour: Gloss Black and Fluorescent Green
- Frame sizes: 17", 19", 21", 23"

KANDARA LADIES

- Responsive Reynolds 501 butted tubing frame with quality forged ends.
- Shimano 200 GS 21 speed ensemble featuring:
  - Low profile cantilever brakes with short reach levers.
  - Biopace chainset.
  - Rapid Fire “Shimano Total Integration” (STI) Hyperglide gearing system.
- Lightweight alloy rims with quick release front hub.
- Vetta Gel Shock Absorber saddle in Astrale finish.
- Colour: Deep Purple and Fluorescent Green
- Frame sizes: 17", 19", 21"
AMAZON

- Shimano 100 GS 21 speed ensemble with Rapid Fire “Shimano Total Integration” (STI) shifting and featuring:
  - Biopace chainset.
  - Low profile cantilever brakes with short reach levers.
- Lightweight alloy rims with quick release front hub.
- Raleigh brazed sloping Mountain Bike frame with oversized head tube, quick release cable guides and forged ends.
- Exotically finished in Brazilian Rain, exclusive to Raleigh.
- Loose proof headset and sealed bottom bracket fittings.
- Frame sizes: 17", 19", 21", 23"

AMAZON LADIES

- High performance Raleigh brazed ladies Mountain Bike frame with forged ends, loose proof headset and sealed bottom bracket fittings.
- Shimano 100 GS 21 speed ensemble with Rapid Fire “Shimano Total Integration” (STI) shifting and featuring:
  - Biopace chainset.
  - Low profile cantilever brakes with short reach levers.
- Unique to Raleigh – Exotic Brazilian Rain paint finish.
- Lightweight alloy rims with quick release front hub.
- Suede-like anatomic saddle.
- Frame sizes: 17", 19", 21"
Even standing still, with their innovative and unique paint finishes, these bikes really look the business.

But it's when you mount up that you know what excitement is all about. Because, if you've got it in you, these are the bikes to bring it out.

With features like "energiser seat stays" to give extra rear frame triangle strength and stiffer, flex-free braking, you ride more confidently.

And because we build in "Power Blade" forks, you get the benefit of upper fork strength and power with lower fork flex for improved shock absorption and a more comfortable ride.

Combine these frame features with thumbshifters, multi-gears, powerful braking systems and wide, deep tread tyres, and you have a bike that makes the grade both on the street and away from the straight and narrow.

But, if you want the ultimate in Mountain Bike technology and shock absorption, then try our "Synchro Shock Fork System", a telescopic front suspension fork on the all new Activator.
**ACTIVATOR**
- Unique hi-tech "Synchro Shock Fork System"—a suspension unit designed to deliver 1 1/2" of telescopic shock absorbing travel.
- Shimano 21 speed index gearing system.
- New Raleigh Mountain Bike frame with sloping top tube and "energiser seat stays".
- Black alloy low profile cantilever braking system.
- Black T-bone Mountain Bike stem with external cable hanger.
- Colour: Black Ice Spray
- Frame sizes: 16" with 24" wheels
  18", 19 1/2", 21", 23" with 26" wheels

**DRAKEN**
- Shimano 70 GS ensemble featuring: Biopace chainset with guard.
- 12 or 18 speed Rapid Fire "Shimano Total Integration" (STI) gearing system.
- Low profile cantilever brakes with three finger brake levers.
- Mountain Bike handlebar with black Cromoly steel bar ends for dual riding position.
- Quality alloy rims (frame sizes 18" upwards).
- New Raleigh Mountain Bike frame with sloping top tube, "energiser seat stays" and "Power Blade" forks.
- Colour: New Red and Hot Yellow
- Frame sizes:
  * 12 speed: 16" with 24" wheels
  18 speed: 18", 19 1/2", 21", 23" with 26" wheels

ALASKA
- Shimano 21 speed index gearing system with thumbshift controls.
- New Raleigh Mountain Bike frame with sloping top tube, “energiser seat stays” and “Power Blade” forks.
- Black alloy low profile cantilever braking system.
- Triple chainset with cotterless cranks and guard.
- Colour: Platinum Blue
- Frame sizes: 16” with 24” wheels 18”, 19½”, 21”, 23” with 26” wheels

ALASKA LADIES
- New Raleigh ladies Mountain Bike frame with “energiser seat stays” and Hi-Tensile “Power Blade” forks.
- Shimano 21 speed index gearing system.
- Powerful cantilever braking system.
- Anatomic Suedeine ladies Mountain Bike saddle.
- Black alloy swan neck stem.
- Colour: Platinum Blue
- Frame sizes: 18”, 20”
MICHIGAN
- Shimano 18 speed index gearing system.
- New Raleigh Mountain Bike frame with sloping top tube, "energiser seat stays" and "Power Blade" forks.
- Powerful alloy cantilever braking system with Mountain Bike levers.
- Sleek black Mountain Bike handlebar and T-bone stem.
- Colour: Brilliant White
- Frame sizes: 16" with 24" wheels 18", 19½", 21", 23" with 26" wheels

ASCENDER INDEX
- New Shimano 15 speed index gearing system.
- New Raleigh Mountain Bike frame with sloping top tube, "energiser seat stays" and "Power Blade" forks.
- Cantilever braking system.
- Triple chainset with cottered cranks and guard.
- Enamelled Raleigh Mountain Bike handlebar with MTB grips.
- Colour: Emerald Spray – unique to Raleigh
- Frame sizes: 16" with 24" wheels 18", 19½", 21", 23" with 26" wheels

SCORPION
- Shimano 12 speed index gearing system with thumbshift controls.
- New Raleigh sloping Mountain Bike frame with Hi-Tensile "Power Blade" forks.
- Double cottered chainset with guard.
- Enamelled Raleigh Mountain Bike handlebar with T-bone stem and MTB grips.
- Colour: Black Widow Cobweb
- Frame sizes: 16" with 24" wheels 18", 19½", 21", 23" with 26" wheels
**Camaro**
- Shimano 6 or 12 speed index gearing system.
- Anatomic Suede ladies Mountain Bike saddle.
- New Raleigh ladies Mountain Bike frame with all kinds of seat adjustment and Unicrown fork.
- Enamel Raleigh Mountain Bike handlebar with swan neck alloy stem.
- Exclusive to Raleigh – Calypso Vapour paint finish.
- Frame sizes: 16” with 24” wheels, 18”, 20” with 26” wheels.

**Cassis**
- New Shimano 5 speed index gearing system.
- New Raleigh ladies Mountain Bike frame with all kinds of seat adjustment and Unicrown fork.
- Finished in Mountain Plum Vapour, exclusive to Raleigh.
- Powerful alloy cantilever brakes for sure stopping.
- Cotterless chainset with guard.
- Frame sizes: 16” with 24” wheels, 18”, 20” with 26” wheels.
The whole essence of Mountain Biking is for the rider to be totally in tune with his bike. This 'one-ness' extends beyond feel and control onto look and attitude.

To this end, Raleigh have taken great pains to provide parts and accessories with which the rider can personalise his – or her – bike.

You could put the spec up a notch by installing a Cromoly micro-adjustable seatpin and replacing the handlebars with our feather-weight Titanium version. (Onto which you might put a set of ergonomically-designed grips).

And for your pedals, how about Gary Fisher toe clips?

For essential repair and maintenance, Raleigh offer a comprehensive range of tools and a get-you-home, fat tyre puncture kit with its own CO2 cylinder.

And nobody should be without a Raleigh all purpose bike stand which folds away and fits in the boot of your car.

To make sure you look the business as well as your bike, there's a tasty range of Santini quality jerseys and shorts in Team Raleigh strip. And an all-new range of MTB fleece jackets, shorts, sweat and T-shirts.

When it comes to personal safety, top yourself off with a Raleigh helmet. And to protect your bike from the light-fingered fraternity, choose one of our heavy-duty locks.
A BRILLIANT PAINT JOB
Raleigh have got paintwork down to a fine art. Our own Laboratory staff and Design Department develop the most exciting, innovative and original new colours, finishes and graphics. We have the most sophisticated cycle finishing plant in the world. Here, the technology is on a par with that used by car manufacturers. Up to four coats of finish are applied, after the tubes have undergone a 15 stage priming process to prevent corrosion, including total submersion in electrostatic primer to coat them inside and out. To ensure the strength of the Raleigh finish is double that of most other bikes, we mainly use dry powder paint finishes which are fused together at very high temperatures.

TOP GEAR
Gears are used to reduce the effort required to pedal. Mountain Bikes are fitted with derailleur gears which provide far more gear ratios to cope with a wide choice of terrain. On Raleigh Mountain Bikes, you’ll find between 5 and 21 gears including Index gearing systems and STI (Shimano Total Integration) gear systems to provide fast and responsive gear changing.

THE RALEIGH CYCLE PROTECTION REGISTER
To help you should you be unfortunate enough to have your bike stolen, Raleigh can register your new bike, FREE, on our unique customer computer. You have a much better chance of recovering it if you have recorded the frame number and its specifications for ease of identification.

See your Raleigh Bicycle Guide for details.

THE RALEIGH GUARANTEE
All Raleigh Mountain Bikes conform to BS 6102 (British Standard for Bicycles). They are so well constructed, we guarantee the frames and non suspension forks* for a full 15 years and all our bikes carry a one year parts warranty.

See your Raleigh Bicycle Guide for details.

*The Raleigh “Syncho Shock Fork System” is guaranteed for two years. Rock Shox forks are guaranteed for one year.
